- Advanced user-friendly features of HMI/GOT Screen Design Software GT Works3

GLOBAL IMPACT OF MITSUBISHI ELECTRIC

Through Mitsubishi Electric's vision, "Changes for the Better" are possible for a brighter future.

Changes for the Better

We bring together the best minds to create the best technologies. At Mitsubishi Electric, we understand that technology is the driving force of change in our lives. By bringing greater comfort to daily life, maximizing the efficiency of businesses and keeping things running across society, we integrate technology and innovation to bring changes for the better.

Mitsubishi Electric is involved in many areas including the following

Energy and Electric Systems

A wide range of power and electrical products from generators to large-scale displays.

Electronic Devices

A wide portfolio of cutting-edge semiconductor devices for systems and products.

Home Appliance

Dependable consumer products like air conditioners and home entertainment systems.

Information and Communication Systems

Commercial and consumer-centric equipment, products and systems.

Industrial Automation Systems

Maximizing productivity and efficiency with cutting-edge automation technology.

Lineup and Features

Advanced model fully equipped with useful functions

GT27

- Multi-touch gesture functions and video-related functions are available only on GT27 model
- Support various remote monitoring features such as the GOT Mobile function and the VNC server function
- GOT Drive functions are fully supported
- The MES interface function enables interaction with databases

Item	Specifications
Display	5.7"/8.4"/10.4"/12.1"/15", TFT color LCD, 65536 colors
Resolution	XGA, SVGA, VGA
User memory	Memory for storage (ROM): 57 MB (GT2705 has 32 MB) Memory for operation (RAM): 128 MB (GT2705 has 80 MB)

High performance, cost efficient, mid-range model

GT25

- Support various remote monitoring features such as the GOT Mobile function and the VNC server function
- GOT Drive functions are fully supported
- The MES interface function enables interaction with databases

Item	Specifications
Display	5.7"/8.4"/10.4"/12.1", TFT color LCD, 65536 colors
Resolution	SVGA, VGA
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 80 MB

NEW

GOT2000 widescreen expands your view

GT25 wide model

- Widescreen displays large amounts of information
- Stylish model with narrow bezel

Item	Specifications
Display	7" widescreen/10.1" widescreen, TFT color LCD, 65536 colors
Resolution	7": WVGA, 10.1": WXGA
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 128 MB

NEW

Designed for extreme environments

GT25 rugged model

- Wide operating temperature range. High brightness, clear under daylight.
- Vibration and shock resistant with a metal housing. Compliant with IP67F and IP66F.

Item	Specifications
Display	7" widescreen, TFT color LCD, 65536 colors
Resolution	WVGA
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 128 MB

Concept movie

Lineup

Just right for various applications

GT25 open frame model

- Installing from the back side of the control panel complements the machine-design surface
- Stainless-look environmental protection sheet allows the touch panel to blend into various production machines

Item	Specifications
Display	8.4"/10.4"/12.1", TFT color LCD, 65536 colors
Resolution	SVGA, VGA
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 80 MB

NEW

HMI functionality in the palm of your hand

GT25 handy GOT

- Compact, lightweight, easy to handle
- Operate the GT25 Handy GOT standing near the device

Item	Specifications
Display	5.7"/6.5", TFT color LCD, 65536 colors
Resolution	VGA
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 80 MB

Unchallenged cost performance

GT23

- Sufficient interfaces and functions for interaction with various industrial devices
- Support system launcher to check system configurations of programmable controllers

Item	Specifications
Display	8.4"/10.4", TFT color LCD, 65536 colors
Resolution	VGA
User memory	Memory for storage (ROM): 9 MB Memory for operation (RAM): 9 MB

NEW

Suitable for a wide range of applications

GT21 wide model

- Remote monitoring with the VNC server function is available on GT21 wide model
- USB interface (host) for connection with USB memory devices

Item	Specifications
Display	7" widescreen, TFT color LCD, 65536 colors
Resolution	WVGA
User memory	Memory for storage (ROM): 15 MB

Compact models with basic functions

GT21

GT27

Advanced model with multi-touch gesture functions

A wide variety of specifications suit every system design

Communication interfaces such as Ethernet, RS-232, RS-422/485, USB host/device and SD memory card are standard features. High capacity data processing ensure smooth screen operation even when multiple tasks, such as logging, script, alarm, or device data transfer, are running. In addition, image recording, image playback, video image input, and RGB output are available*, thus all the functions of GOT2000 can be used on GT27 models. * Excluding GT2705

Item	Specifications
Display	5.7"/8.4"/10.4"/12.1"/15", TFT color LCD, 65536 colors
Resolution	XGA, SVGA, VGA
Backlight	White LED
User memory	Memory for storage (ROM): 57 MB (GT2705 has 32 MB) Memory for operation (RAM): 128 MB (GT2705 has 80 MB)
Standard interface	Ethernet, RS-232, RS-422/485 USB host (USB-A) 2 channels* (USB 2.0 (High-Speed 480 Mbps)) USB device (USB Mini-B) 1 channel (USB 2.0 (High-Speed 480 Mbps)) SD memory card interface
Extension interface	CC-Link IE Control, CC-Link IE Field, CC-Link, bus, MELSECNET/H
Side interface	For installing a wireless LAN communication unit

* White model has 1 channel.

With Backup/Restoration function, fear troubles no more!

The programs and parameters of the programmable controller CPU can be backed up to the SD memory card or USB memory device in the GOT. In case of a CPU failure, users can perform batch operation to restore the data to the controller.

■ GT27 model external appearance [Standard model: front face/rear face]

- 1 Human sensor**
The unit automatically detects an operator approaching the unit and displays the screen.
* GT2715, GT2712 only
- 2 USB interface: device (USB Mini-B)**
Connect to a personal computer and transfer data.
* Standard models: front face only
* White models: rear face only
- 3 USB interface: host (USB-A)*1**
Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory.
A USB mouse, keyboard, barcode reader*2, or RFID reader*2 can also be connected.
*1 White models: rear face only
*2 USB keyboard (HID) compatible model only

- 4 Extension interface**
Communication and option units can be installed.
- 5 Ethernet interface**
Use Ethernet to simultaneously connect to up to four types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.
- 6 RS-232 interface**
Connect to various industrial devices, barcode readers and serial printers.
- 7 RS-422/485 interface**
Connect to various industrial devices and barcode readers.

- 8 Side interface**
Mount a wireless LAN communication unit.
- 9 SD memory card interface**
Save large volumes of data, including alarms and logging data.

■ GT27 model external appearance [White model: front face]

- 1 Human sensor**
The unit automatically detects an operator approaching the unit and displays the screen.
* GT2712 only
- 2 Flat body**
The front flat screen is easy to clean. (USB interface is on the back.)
- 3 White body**
The white model portrays a clean image.

White model features

GOT is acceptable for use in hazardous locations classified by various safety standards (Class I, Division 2 [the United States, Canada], ATEX [Europe], KCs [Korea]).

* Supported standards vary depending on the model. For the details, please refer to page 44.

GT25

High performance, cost efficient, mid-range model

A wide variety of specifications suit every system design

Communication interfaces such as Ethernet, RS-232, RS-422/485, USB host/device and SD memory card are standard features. High capacity data processing ensure smooth screen operation even when multiple tasks, such as logging, script, alarm, or device data transfer, are running.

Side interface*2	For installing a wireless LAN communication unit

*1 GT2505 and white model have 1 channel.

*2 GT2505 does not have the extension interface and the side interface.

FA Transparent function simplify your debugging work!

By connecting a personal computer to the front USB interface on the GOT, the GOT acts as a transparent gateway to enable startup and adjustment of equipment. Users do not have to bother with opening the electrical cabinet or changing cable connections.

■ **GT25 standard model external appearance [front face/rear face]** * Excluding GT2505

1 USB interface: device (USB Mini-B)
Connect to a personal computer and transfer data.

* Standard models: front face only
* White models: rear face only

2 USB interface: host (USB-A)*1
Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory.
A USB mouse, keyboard, barcode reader*2, or RFID reader*2 can also be connected.

*1 GT2505, white models: rear face only
*2 USB keyboard (HID) compatible model only

3 Extension interface
Communication and option units can be installed.

4 Ethernet interface
Use Ethernet to simultaneously connect to up to four types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

5 RS-232 interface
Connect to various industrial devices, barcode readers and serial printers.

6 RS-422/485 interface
Connect to various industrial devices and barcode readers.

7 Side interface
Mount a wireless LAN communication unit.

8 SD memory card interface
Save large volumes of data, including alarms and logging data.

■ **GT2505 external appearance [front face/rear face]** **NEW**

■ **GT25 white model external appearance [front face]**

9 Simple design
In the same way as the standard model, the stylish and simple design with a linear motif is sleek and complements any machine design.

10 Flat body
The front flat screen is easy to clean.
(USB interface is on the back.)

11 White body
The white model portrays a clean image.

White model features

GOT is acceptable for use in hazardous locations classified by various safety standards (Class I, Division 2 [the United States, Canada], ATEX [Europe], KCs [Korea]).

* Supported standards vary depending on the model. For the details, please refer to page 47.

NEW

GT25 wide model

GOT2000 widescreen expands your view

For details

Concept movie

For the details of GT25 wide models, please refer to the Graphic Operation Terminal GOT2000 Series Wide Model catalog (L(NA)08461ENG).

Various interfaces are equipped in a compact body

The stylish design realized with a narrow bezel. The GOT2000 wide models are available in a choice of silver and black.

Two Ethernet ports and the built-in sound output interface* equipped as standard add value to your system.

* A speaker with built-in amplifier is required separately.

Item	Specifications
Display	7" widescreen/10.1" widescreen, TFT color LCD, 65536 colors
Resolution	7": WVGA, 10.1": WXGA
Backlight	White LED
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 128 MB
Standard interface	Ethernet (2 ports), RS-232, RS-422/485 USB host (USB-A) 1 channel (USB 2.0 (High-Speed 480 Mbps)) USB device (USB Mini-B) 1 channel (USB 2.0 (High-Speed 480 Mbps)) Sound output interface (φ3.5 minijack), SD memory card interface
Extension interface	—
Wireless LAN communication unit interface	For installing a wireless LAN communication unit

Ultra high resolution display improves expressiveness

Ultra high resolution WXGA screen* displays necessary and sufficient information on one screen. Small characters can be displayed clearly.

* WXGA display on the 10.1 inch model. WVGA display on the 7 inch model.

About 3.3 times higher resolution displays small characters clearly

* 10.1 inch model

Add value to your system with sound notification

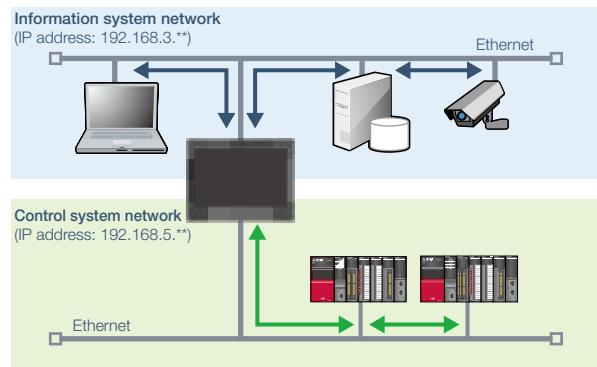

The built-in sound output interface makes it easy to implement the sound notification system (page 36). Not only by displaying the contents of events on the screen but also by notifying with sound, you can convey the necessary information to the operators.

Sound output device (speaker with built-in amplifier, etc.)

Enable separation of information and control system networks

Two Ethernet ports physically separate the information system network in the office from the control system network at the production site. The network architecture becomes safer and more secure by setting different IP addresses for each network.

GT25 wide model external appearance [front face/rear face]

1

1 USB interface: device (USB Mini-B)

Connect to a personal computer and transfer data.

2 USB interface: host (USB-A)

Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

* USB keyboard (HID) compatible model only

3 Ethernet interface (2 ports)

Use Ethernet to simultaneously connect to up to four types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

4 RS-422/485 interface

Connect to various industrial devices and barcode readers.

5 RS-232 interface

Connect to various industrial devices, barcode readers and serial printers.

6 Sound output interface (φ3.5 minijack)

Output sound by connecting φ3.5 stereo mini-plug (3-prong).

7 SD memory card interface

Save large volumes of data, including alarms and logging data.

8 Wireless LAN communication unit interface

Mount a wireless LAN communication unit.

NEW

For details

GT25 rugged model

Wide operating temperature range model with a stylish metal housing

2

Hardware

For the details of the GT25 rugged model, please refer to the Graphic Operation Terminal GOT2000 Series Rugged Model catalog (L(NA)08555ENG).

Suitable for use outdoors or in not air-conditioned rooms

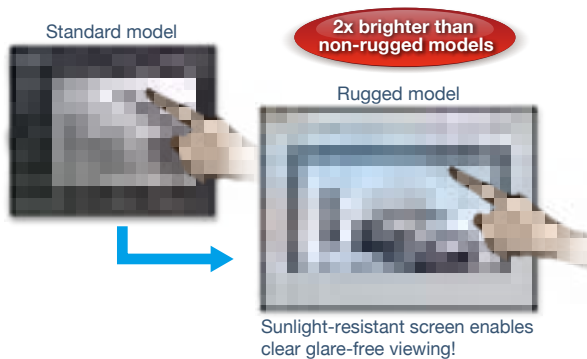

The working ambient temperature has been expanded to -20°C to 65°C. The high-brightness LCD panel (2 times brighter than non-rugged models) provides a clear screen view when installed outdoors. The rugged model is ultraviolet ray resistant with an environmental protection sheet that has UV protection function.

* Note that the structure does not guarantee protection in all users' environments.

High brightness, clear under daylight

The high-brightness LCD panel (1000 cd/m²*) provides a clear screen view even under strong sunlight.

* Brightness of independent panel.

Item	Specifications
Display	7" widescreen, TFT color LCD, 65536 colors
Resolution	WVGA
Backlight	White LED
Panel material	Aluminum
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 128 MB
Standard interface	Ethernet (2 ports), RS-232, RS-422/485 USB host (USB-A): 1 channel (USB 2.0 (High-Speed 480 Mbps)) USB device (USB Mini-B): 1 channel (USB 2.0 (High-Speed 480 Mbps)) Sound output interface (Ø3.5 minijack), SD memory card interface
Extension interface	—
Wireless LAN communication unit interface	For installing a wireless LAN communication unit

Operating ambient temperature	-20 °C to 65 °C
Brightness (LCD panel)	1000 cd/m ² (Typ)
UV cutoff	Approximately 95% (370 nm)
Protective structure	Front: IP66F, IP67F Inside control panel: IP2X
Vibration resistance	19.6 m/s ² (continuous), 19.6 m/s ² (intermittent)
Shock resistance	392 m/s ² (40G)
Dedicated option	UV protective sheet, protective cover for oil, stand

Point!

UV resistant

Ultraviolet rays are cut by approximately 95% (370 nm) with a UV-cutting layer and UV-absorbing layer. Degradation of the LCD panel or touch panel caused by ultraviolet rays is reduced. Use the optional UV protection sheet to further improve resistance to ultraviolet rays.

Vibration and shock resistant

Since the structure of the front panel has been reinforced with a metal housing, the rugged model can be used in environments that are subject to vibration or shock, such as construction equipment or snow plows.

■ GT25 rugged model external appearance [front face/rear face]

1 GOT front face

The metal enclosure increases resistance against vibration and shock. Ultraviolet rays are cut by approximately 95% (370 nm). Also comply with IP66F and IP67F ratings.

2 Ethernet interface (2 ports)

Use Ethernet to simultaneously connect to up to four types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

3 RS-422/485 interface

Connect to various industrial devices and barcode readers.

4 RS-232 interface

Connect to various industrial devices, barcode readers and serial printers.

5 Sound output interface (φ3.5 minijack)

Output sound by connecting φ3.5 stereo mini-plug (3-prong).

6 USB interface: host (USB-A)

Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

* USB keyboard (HID) compatible model only

7 USB interface: device (USB Mini-B)

Connect to a personal computer and transfer data.

8 SD memory card interface

Save large volumes of data, including alarms and logging data.

9 Wireless LAN communication unit interface

Mount a wireless LAN communication unit.

GT25 open frame model

A new style of GOT2000

For the details of the GT25 open frame model, please refer to the Graphic Operation Terminal GOT2000 Series White & Open catalog (L(NA)08414ENG).

GOT complements machine design

Installing the GOT2000 from the back side of the control panel complements the machine-design surface.

Using a stainless-look environmental protection sheet allows the touch panel to blend into the production machines for the pharmaceutical and food industries.

Item	Specifications
Display	8.4"/10.4"/12.1", TFT color LCD, 65536 colors
Resolution	SVGA, VGA
Backlight	White LED
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 80 MB
Standard interface	Ethernet, RS-232, RS-422/485 USB host (USB-A) 1 channel (USB 2.0 (High-Speed 480 Mbps)) USB device (USB Mini-B) 1 channel (USB 2.0 (High-Speed 480 Mbps)) SD memory card interface
Extension interface	CC-Link IE Control, CC-Link IE Field, CC-Link, bus, MELSECNET/H
Side interface	For installing a wireless LAN communication unit

IP67F protection

To conform to IP67F, attach an environmental protection sheet.* GOT can be operated with wet hands, wiped with a damp cloth, and washed with water.

* Note that the structure does not guarantee protection in all users' environments. The GOT may not be used in certain environments where it is subjected to splashing oil or chemicals for a long period of time or soaked in oil mist.

Suitable for pharmaceutical and food industries

Flush surface without any gaps and grooves prevents dust, dirt, and debris from accumulated on the edge.

■ GT25 open frame model external appearance [front face/rear face]

① Touch panel

Using an environmental protection sheet (optional or prepared by the users) is required.

② Unit installation fitting

Fittings to install GOT to a panel are included.

③ Extension interface

Communication and option units can be installed.

④ Ethernet interface

Use Ethernet to simultaneously connect to up to four types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

⑤ RS-232 interface

Connect to various industrial devices, barcode readers and serial printers.

⑥ RS-422/485 interface

Connect to various industrial devices and barcode readers.

⑦ Side interface

Mount a wireless LAN communication unit.

⑧ SD memory card interface

Save large volumes of data, including alarms and logging data.

⑨ USB interface: device (USB Mini-B)

Connect to a personal computer and transfer data.

⑩ USB interface: host (USB-A)

Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

* USB keyboard (HID) compatible model only

⑪ POWER LED

Check the power supply status.

■ Easy installation

Adjustable to various panels

The installation fitting is adjustable from 1.5 mm to 4 mm of the control panel thickness. GOT can adjust the difference of the control panel thickness. Vertical installation is also available.

Designed for safe installation

The edge of the touch panel is protected to prevent damage to the touch panel or injury by touching the sharp edge. It is possible to safely install the GOT.

Dedicated installation fittings

Attach appropriate installation fittings (vertical/horizontal) depending on the installation orientation.

Installation fitting (panel thickness: 1.5 mm to 4 mm (0.06 inch to 0.16 inch))

Touch panel protected by mold
Designed for safe installation

Installation instructions

* An environmental protection sheet (optional or prepared by the users), studs and screws (prepared by the users) are required separately.

NEW

GT25 handy GOT

HMI functionality in the palm of your hand

For details

2

Hardware

For the details of GT25 handy GOT, please refer to the Graphic Operation Terminal GOT2000 Series Handy GOT catalog (L(NA)08506ENG).

GOT2000 Series handy GOT

With portable handy GOT, you can operate the machine while viewing it.

Item	Specifications
Display	5.7"/6.5", TFT color LCD, 65536 colors
Resolution	VGA
Backlight	White LED
User memory	Memory for storage (ROM): 32 MB Memory for operation (RAM): 80 MB
Standard interface	Ethernet*2, RS-232*1*2, RS-422/485*1*2 USB host (USB-A): 1 channel (USB 2.0 (High-Speed 480 Mbps)) USB device (USB Mini-B): 1 channel (USB 2.0 (High-Speed 480 Mbps)) SD memory card interface

*1 When using GT2506HS, select one channel from RS-232 or RS-422/485.

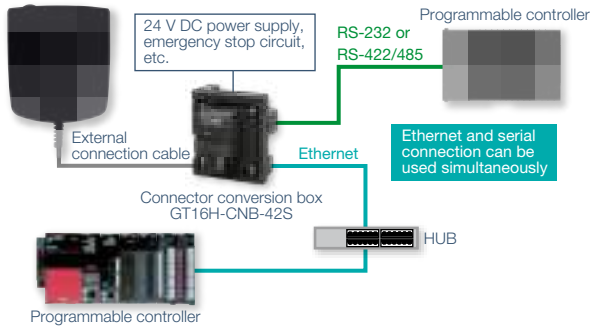

*2 When using GT2505HS, select one channel from Ethernet, RS-232, or RS-422. RS-485 cannot be used.

Example of connecting GT25 handy GOT and industrial devices

GT2506HS-VTBD

Ethernet connection

- The maximum distance between the connector conversion box and the GOT is 10 m.
- Up to four different industrial devices are connectable.

Serial connection

Connector conversion box

ID number recognition function supported

GT16H-CNB-42S

Required to connect the GT2505 Handy GOT by Ethernet connection.

Required to connect the GT2506 Handy GOT by serial or Ethernet connection.

GT16H-CNB-37S

Required to connect the GT2505 Handy GOT or GT2506 Handy GOT by Ethernet connection.

GT11H-CNB-37S

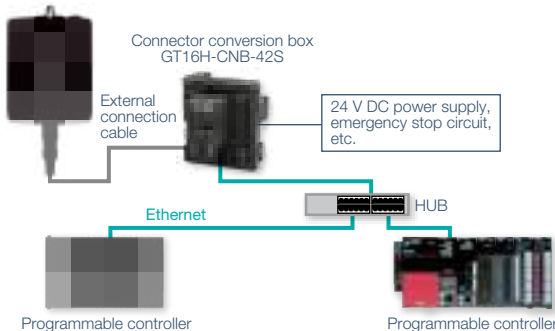

Required to connect the GT2505 Handy GOT by serial connection.

GT2505HS-VTBD

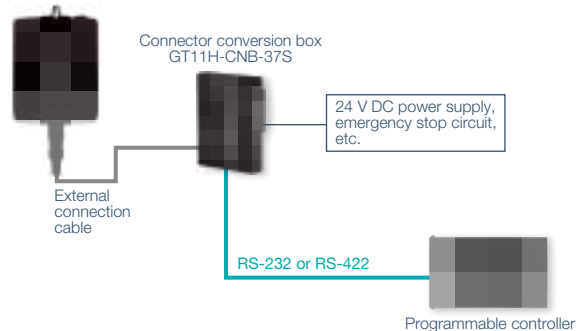

Ethernet connection

- The maximum distance between the connector conversion box and the GOT is 10 m.
- Up to four different industrial devices are connectable.

Serial connection

- Select either of RS-232 or RS-422.
- The maximum distance between the connector conversion box and the GOT is 10 m.

■ **GT2506HS external appearance [front face/rear face]**

■ **GT2505HS external appearance [front face/rear face]**

① **Emergency stop switch**

An emergency stop switch is used to stop the operation of devices in an emergency. It utilizes a “normally closed contact” for safety.

② **LED operation switches (GT2506HS)/
Operation switches (GT2505HS)**

The switches can be used to operate and stop machines. Hard switches on the operation panel are not necessary.

③ **SD memory card interface**

Save large volumes of data, including alarms and logging data.

④ **USB interface: device (USB Mini-B)**

Connect to a personal computer and transfer data.

⑤ **USB interface: host (USB-A)**

Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

* USB keyboard (HID) compatible model only

⑥ **Keylock switch (2-position switch)**

Operators can be restricted depending on the operation, such as switching manual/automatic operation or selecting the modes. Once the key is pulled out, others cannot operate it. The switch is used with wiring to the input of programmable controllers.

⑦ **Grip switch**

The three-position (OFF-ON-OFF) type deadman switch is adopted as an interlock for preventing operation mistakes and prohibiting operation of a machine. The switch can directly control external equipment to give immediate stop commands to a machine.

GT2505HS

**Wall-mounting attachment for Handy GOT
GT14H-50ATT**

The wall-mounting attachment for handy GOT is useful to place GT2505 Handy GOT while it is not being used.

Firmly held with four posts, the GOT can be stably placed on the attachment. When you use the GOT, you can quickly remove it and start operation.

GT23

Unchallenged cost performance

A wide variety of specifications suit every system design

Communication interfaces such as Ethernet, RS-232, RS-422/485, USB host/device and SD memory card are standard features.

Advanced interactive features such as data logging, multi-channel communication, and FA transparent function are supported.

Item	Specifications
Display	8.4"/10.4", TFT color LCD, 65536 colors
Resolution	VGA
Backlight	White LED
User memory	Memory for storage (ROM): 9 MB Memory for operation (RAM): 9 MB
Standard interface	Ethernet, RS-232, RS-422/485 USB host (USB-A) 1 channel (USB 1.1 (Full-Speed 12 Mbps)) USB device (USB Mini-B) 1 channel (USB 1.1 (Full-Speed 12 Mbps)) SD memory card interface

Use the System Launcher function and quickly check the system status!

A graphical system configuration diagram indicates module statuses. When you touch a module the extended function list is shown and you can carry out maintenance work efficiently.

System configuration diagram

Icons show the module status. You can check the module with an error at a glance.

Extended functions menu

■ GT23 model external appearance [Standard model: front face/rear face]

- 1 Simple design**
The simple design with a linear motif is sleek and complements any machine design.
- 2 Flat body**
The front flat screen is easy to clean. (USB interface is on the back.)

3 Ethernet interface
Use Ethernet to simultaneously connect to up to two types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

4 RS-232 interface
Connect to various industrial devices, barcode readers and serial printers.

5 RS-422/485 interface
Connect to various industrial devices and barcode readers.

6 USB interface: device (USB Mini-B)
Connect to a personal computer and transfer data.

7 USB interface: host (USB-A)
Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

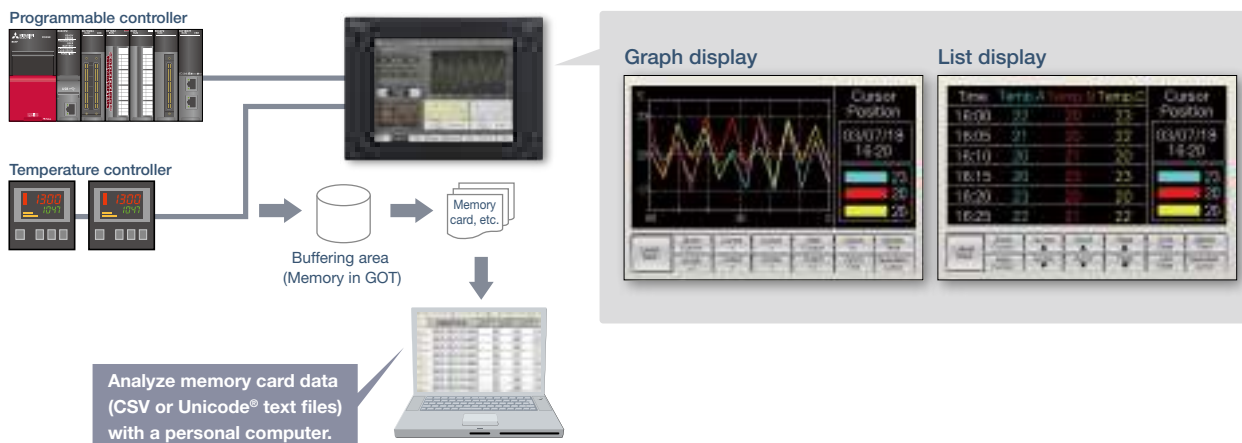

* USB keyboard (HID) compatible model only

8 SD memory card interface
Save large volumes of data, including alarms and logging data.

Easily collect log data and display it in graphs and lists

Use the GOT to collect data from the programmable controller and temperature controllers. The data can be displayed in graphs and lists. It can also be exported to a personal computer for further analysis. The logging data can be saved in the built-in SRAM even if the power fails.

High resolution WVGA screen has sufficient display area for long alarm messages.

5 times higher resolution greatly increases expressiveness

Remote monitoring provides wide access to application

Remote monitoring with the VNC server function is now available on GT21. By remotely connecting to GOT from personal computer or tablet, you can operate, monitor production equipment and connect to system devices.

* GT2107-W only among GT21 models.

Enhanced graphics

Outline fonts can now be used on GT21 model.

Antialiasing smoothes out jagged text edges and displays clear characters, offering improved visibility of screen display.

* GT2107-W only among GT21 models.

Standard 16dot HQ Gothic

Happy

Wide Outline Gothic (antialiasing enabled)

Happy

Clear characters improves visibility

■ GT21 wide model external appearance [front face/rear face]

1 USB interface: device (USB Mini-B)

Connect to a personal computer and transfer data.

2 USB interface: host (USB-A)

Transfer project data or read the data (logging data, etc.) to or from the GOT using the USB memory. A USB mouse, keyboard, barcode reader*, or RFID reader* can also be connected.

* USB keyboard (HID) compatible model only

3 Ethernet interface

Use Ethernet to simultaneously connect to up to two types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

4 RS-422/485 interface

Connect to various industrial devices and barcode readers.

5 RS-232 interface

Connect to various industrial devices, barcode readers and serial printers.

6 SD memory card interface

Save large volumes of data, including alarms and logging data.

GT21

■ GT2104-R

Compact model with exciting possibilities

Widescreen type compact model!

High resolution, 480 × 272 dot display realized in a compact body!

Item	Specifications
Display	4.3", TFT color LCD, 65536 colors
Resolution	480 × 272 dots
Backlight	White LED
User memory	Memory for storage (ROM): 9MB
Standard interface	Ethernet, RS-232, RS-422/485 USB device (USB Mini-B): 1 channel (USB 1.1 (Full-Speed 12 Mbps)) SD memory card interface

Wide screen display fits a lot of data!

The wide model shows a large amount of information on a 65536 color display.

GT1045-QSBD

4.7 inch Screen size: 4.7 inch
Resolution: 320 × 240
Display color: 256 colors

Display color: 65536 colors

■ GT2104-R external appearance [front face/rear face]

1 Simple design

The simple design with a linear motif is sleek and complements any machine design.

2 Flat body

The front flat screen is easy to clean. (USB interface is on the back.)

3 USB interface: device (USB Mini-B)
Connect to a personal computer and transfer data.

4 Ethernet interface
Connect to up to two types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.

5 RS-422/485 interface
Connect to various industrial devices and barcode readers.

6 RS-232 interface
Connect to various industrial devices, barcode readers and serial printers.

7 SD memory card interface

Save large volumes of data, including alarms and logging data.

■ GT2103-PMBD

Small screen, big possibilities

Small, compact, easy to operate!

Ethernet built into a compact body!
The intuitively understandable 5-color backlight offers choices of backlight color and backlight blink according to machine operation state.

Item	Specifications
Display	3.8", monochrome (black/white), 32 shade grayscale TFT LCD display
Resolution	320 × 128 dots
Backlight	5-color LED (white, green, pink, orange, red)
User memory	Memory for storage (ROM): 3 MB
Standard interface	Ethernet, RS-422/485 USB device (USB Mini-B): 1 channel (USB 1.1 (Full-Speed 12 Mbps))
Extension interface	For installing an SD memory card unit

High-definition LCD

GT2103 is equipped with an easy to see, compact high-resolution TFT LCD with 32 gray scales.

Same compact type, but so much clearer!

GT1020

SD memory card unit is available!

SD memory cards can be used when the optional SD memory card unit is attached.

SD memory card unit
GT21-03SDCD
Separate SD memory card is required.

■ GT2103-PMBD external appearance [rear face]

- ① **SD memory card unit interface**
Connect an optional SD memory card unit and save data including alarms and logging data.
* Excluding GT2103-PMBLS
- ② **USB interface: device (USB Mini-B)**
Connect a personal computer and transfer data.
- ③ **RS-422/485 interface**
Connect to various industrial devices and barcode readers.
* Excluding GT2103-PMBDS2
* RS-422 on GT2103-PMBLS (dedicated to FX connection)
- ④ **Ethernet interface**
Use Ethernet to simultaneously connect to up to two types of industrial devices from different manufacturers. CC-Link IE Field Network Basic compatible devices can also be connected.
* GT2103-PMBD only

GOT2000 compatible HMI software
GT SoftGOT2000

MELSOFT

Turn your personal computer or panel computer into GOT2000

For the details of GT SoftGOT2000, please refer to the Monitoring Control System Solutions catalog (L(NA)08577ENG).

License key (for USB port)

3 GT SoftGOT2000

Using GOT functions on a personal computer

GT SoftGOT2000 is the software that has the same monitoring functions as the GOT2000 Series and is used on personal computers and panel controllers by connecting to various industrial devices.

* GT SoftGOT2000 is a software included in GT Works3. A separate license key must be mounted during use.

Reusing GOT2000 Series project data

The project data of GT SoftGOT2000 is created with GT Designer3 in the same way as GOT. By converting the GOT type to GT SoftGOT2000, the project data for GOT2000 can be used as is.

Changing resolution flexibly

The users can select resolutions from a list or can flexibly specify resolutions to change the screen size depending on applications.

Selectable resolution

X: 640, 800, 1024, 1280, 1600, 1920 dots
 Y: 480, 600, 768, 1280, 1024, 1200 dots

Specifying resolution (1 dot unit)

X: 640 to 1920 dots
 Y: 480 to 1200 dots

Interaction with other applications

Read and write GT SoftGOT2000 internal devices using the user-created applications. In addition, by creating a touch switch on the GT SoftGOT2000 screen, it is possible to start other applications (such as Microsoft® Excel®) while monitoring with GT SoftGOT2000. Interaction with user-created applications makes it possible to build advanced systems.

* For the supported applications, please refer to the GT SoftGOT2000 Version1 manual.

☑GT27 ☑GT25 ☐GT23 ☐GT21

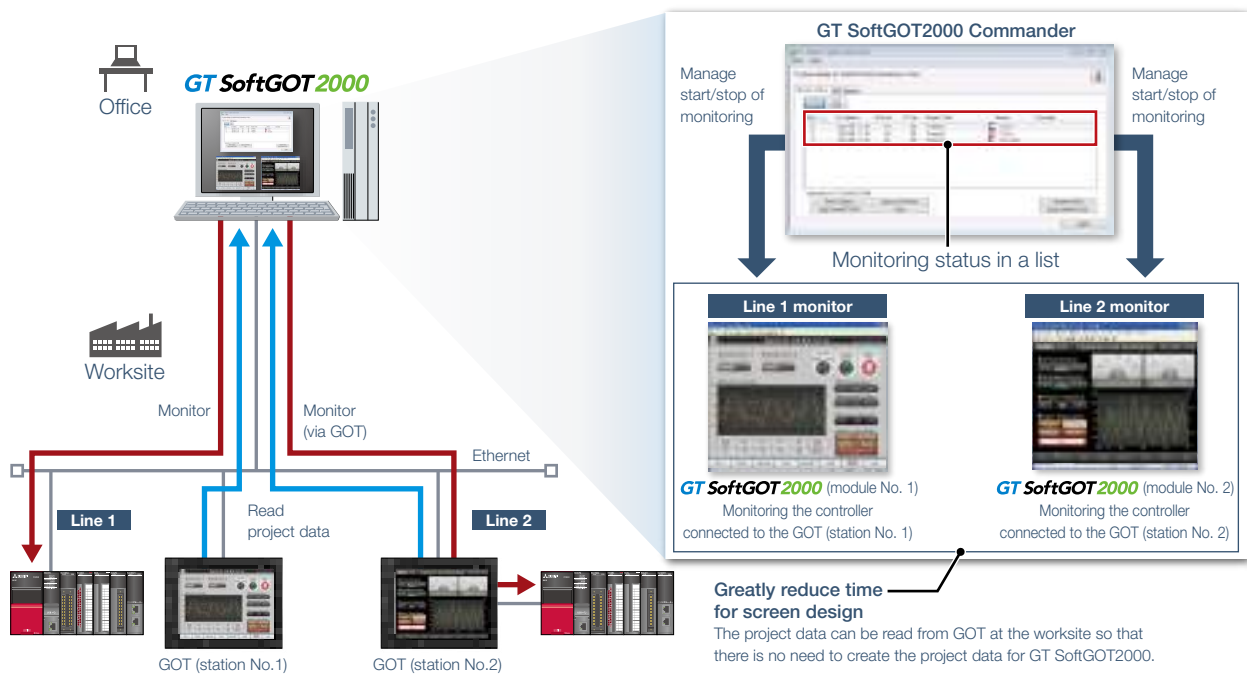

Monitor the production site from a remote location (SoftGOT-GOT link function)

GT SoftGOT2000 reads project data from on-site GOT via Ethernet, and uses the project data to monitor connected devices. GT SoftGOT2000 can also display different screens from those on GOT. Since GT SoftGOT2000 displays the GOT screen on the personal computer, the processing load on the GOT is reduced.

☑GT27 ☑GT25 ☐GT23 ☐GT21

Managing GT SoftGOT2000 modules that use the SoftGOT-GOT link function (GT SoftGOT2000 Commander)

By using GT SoftGOT2000 Commander, multiple GT SoftGOT2000 modules using the SoftGOT-GOT link function can be managed. On GT SoftGOT2000 Commander, you can check the monitoring status of GT SoftGOT2000 modules, and start or stop monitoring on the modules.

Ideal for use in edge-computing fields by supporting Edgexcross

The data collected by Edgexcross can be used and displayed in GT SoftGOT2000 (Version 1.195D or later).

Easy Connection to Various Industrial Devices

Built-in interfaces of GOT provide wide access to applications

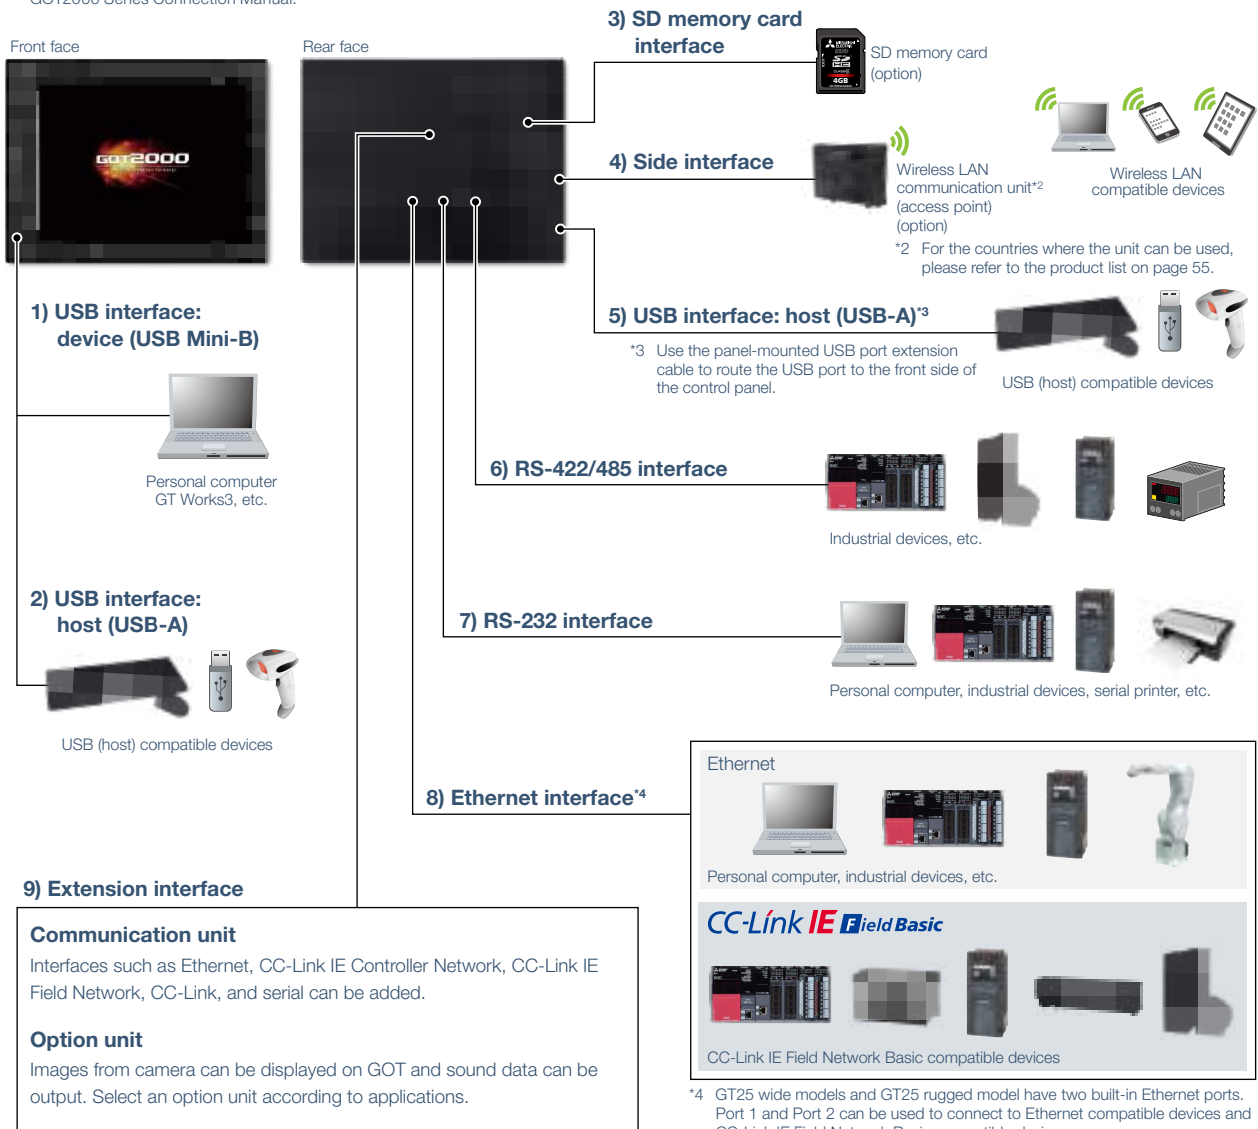

4

GOT2000 Solutions

System configuration*1

*1 The following shows the system configuration of GT2712-STB□ as a representative model. For the supported devices and options of other models, please refer to the GOT2000 Series Connection Manual.

*4 GT25 wide models and GT25 rugged model have two built-in Ethernet ports. Port 1 and Port 2 can be used to connect to Ethernet compatible devices and CC-Link IE Field Network Basic compatible devices.

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Multi-channel function

✔GT27 ✔GT25 ✔GT23 ✔GT21

GOT supports various industrial devices and connection types. With the multi-channel function, up to four channels* of industrial devices (programmable controllers, servos, inverters, temperature controllers, etc.) can be monitored on a single GOT.

* Up to two channels on GT23, GT21.
* Excluding GT2103-PMBLS.

<Typical applications>

Device data transfer function

✔GT27 ✔GT25 ✔GT23 ✔GT21

Using GT Works3, simply set source devices, destination devices, and triggers and you can transfer devices between industrial devices.

*1 For the details of connectable controllers, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the GOT2000 Series Connection Manual.

Specification details and restrictions

Supported connection types, number of channels, and functions differ depending on the GOT type. For the details, please refer to the relevant product manual.

GOT Smart Web-based Remote Solutions

Visualize production from a remote location

GOT offers various remote monitoring and operation functions that can be used for various applications depending on your needs. The GOT remote solutions increase efficiency in various applications from startup, adjustment, to maintenance using mobile devices and personal computers. The GOT2000 improves visualization accessibility and reduces total cost of ownership.

Comparison of remote maintenance functions

Item	Monitor or operate GOT or connected devices from a personal computer or tablet			Monitor a personal computer from GOT
	GOT Mobile function	VNC server function	SoftGOT-GOT link function	Remote personal computer operation function (Ethernet)
Number of simultaneous connections from clients	○ Maximum 5	× Simultaneous connection prohibited (1 to 1 only)	○ Maximum 7 *1	—
Monitor a different screen on each client	○	× Always monitor the same screen as on GOT	△ *2	—

Screen display	Supported objects (touch switch, etc.)	△ Some functions are different from GOT	○ Same as GOT	—
	Monitoring functions (sequence program monitor, etc.)	× Not supported	○ Same as GOT	—

*1 When using the GOT network interaction function, multiple clients can be connected simultaneously. Note that restrictions exist depending on the connection type between GOT and the connected device.

*2 When a GOT internal device is used as the screen switching device, each client can display a different screen.

*3 For the VNC client software that can be used, please refer to the Technical Bulletin GOT-A-0069.

GT27 GT25 GT23 GT21

GOT Mobile function

Check the equipment status using a web browser on tablets from a remote location. Up to five information devices (clients) can simultaneously access a single GOT so that you can view and operate a different screen on each device.

* A separate license (GT25-WEBSKEY-□) is required.

* Up to five clients can connect to one GOT at the same time.

* Browsers (Google Chrome or Safari) are required on clients.

*1 The wireless LAN communication unit cannot be used with GT2505 or GT25 handy models. An access point is required separately.

Check the status of the worksite using a web browser.

Outside of the clean room

From a remote location

From your office

Other usage

On a large screen

Up to five operators

Monitor production with one PC

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Safety precautions

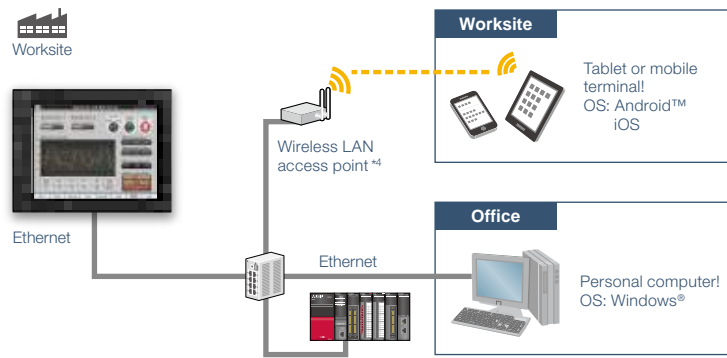

If any of the remote maintenance functions are used to perform remote control of control equipment, the field operator may not notice the remote control, possibly leading to an accident. In addition, a communication delay or interruption may occur depending on the network environment, and remote control of control equipment cannot be performed normally in some cases. Before using the functions to perform remote control, fully grasp the circumstances of the field site and ensure safety.

VNC server function*1*2

✔GT27 ✔GT25 □GT23 ✔GT21³

Remotely view and operate the GOT screen from information devices such as a personal computer and tablet. No dedicated screens are required.

- *1 A separate license (GT25-VNCSKEY-□) is required.
- *2 One client can connect to one GOT at the same time.
- *3 Supported by GT2107-W only among GT21 models.

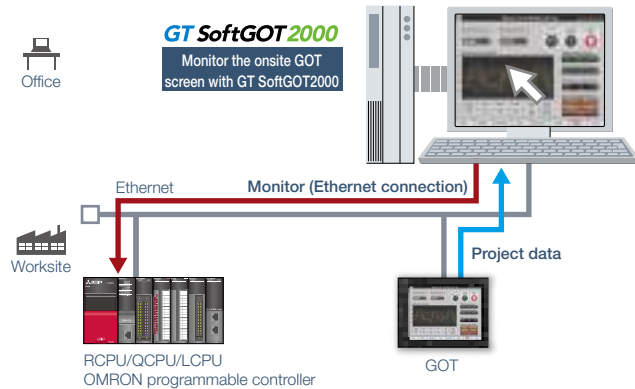

*4 No access point is required separately when installing the wireless LAN communication unit on the GOT. The wireless LAN communication unit cannot be used with GT2505, GT25 handy, or GT21 models.

SoftGOT-GOT link function

✔GT27 ✔GT25 □GT23 □GT21

Read project data from the GOT connected to GT SoftGOT2000 via Ethernet, and you can monitor the devices that are connected to the GOT on different screens from the one shown on the GOT.

- * A separate license key (GT27-SGTKEY-U) is required.

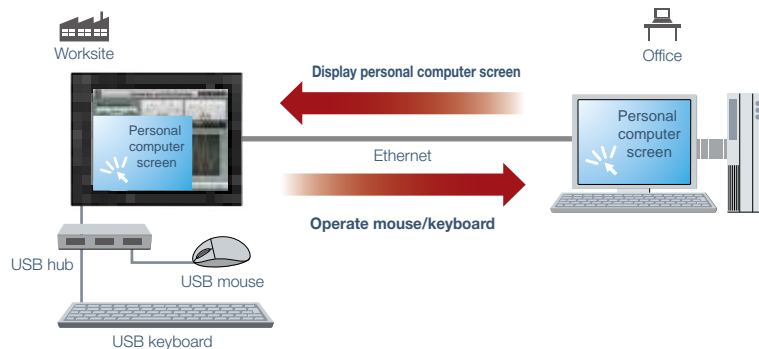

Remote personal computer operation function (Ethernet)

✔GT27 ✔GT25 □GT23 □GT21

Connect GOT at the worksite to a personal computer in a remote location via Ethernet. This allows you to remotely operate the personal computer and view manuals and access the web browser on the computer.

Connecting a USB mouse/keyboard to the front (or rear) USB interface makes it easier to operate the personal computer.

- * A separate license (GT25-PCRAKEY-□) is required.

Visualize production from a remote location

For the details of the GOT2000 Series remote solution functions, please refer to the following catalogs.

- Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG)
- GOT Smart Web-based Remote Solutions Leaflet (L(NA)08399ENG)

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Safety precautions

If any of the remote maintenance functions are used to perform remote control of control equipment, the field operator may not notice the remote control, possibly leading to an accident. In addition, a communication delay or interruption may occur depending on the network environment, and remote control of control equipment cannot be performed normally in some cases. Before using the functions to perform remote control, fully grasp the circumstances of the field site and ensure safety.

GOT Easy Drive Control Interactive Solutions

Designed to suit your application and improve maintenance

4

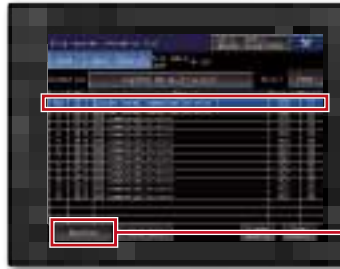

Drive recorder function Dedicated screen

GT27 GT25 GT23 GT21

B B-RJ WB GF GF-RJ JE-B

GOT displays the screen equivalent to the drive recorder of MR Configurator2. Easily check the servo data (motor current, position command, etc.) on GOT without using a personal computer.

GOT2000

Drive recorder information list screen

Graph waveform screen

Store the servo data on the GOT's SD memory card or USB memory, and check and analyze in your office.

NEW

Servo amplifier graph function Dedicated screen

GT27 GT25 GT23 GT21

B B-RJ WB JE-B

■ Startup, adjustment

The servo amplifier graph function visualizes changes in operation of the equipment due to gain adjustment. Without using a personal computer, you can adjust gains and check parameter information efficiently.

Servo amplifier graph waveform

The data of each axis (speed, torque values, etc.) are shown in up to 64 lines in a graph using a window screen on a user-created screen.

■ Maintenance

In the servo amplifier graph function, a specific period of time can be set in the collection and trigger setting window. Then the waveform data that occurred within the set period and the parameter information can be buffered in a servo amplifier, and can be read out and displayed on the GOT. By saving a normal waveform data as a history, you can compare it with the data measured in the same conditions by superimposing them; therefore it is useful for equipment maintenance.

Normal waveform data

Abnormal waveform data

You can see the difference at a glance by superimposing normal and abnormal waveform data

NEW

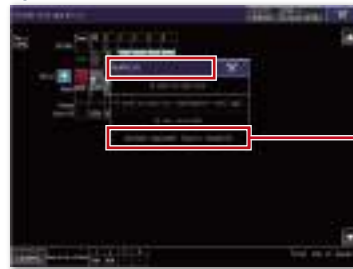

System launcher (servo network) function Dedicated screen

GT27 GT25 GT23 GT21

B **B-RJ** **WB** **JE-B**

GOT automatically generates the network configuration diagram for the number of servo axes used so that you can check the system in an easy-to-view screen. You can start the function from the utility screen or just by touching a special function switch on a user-created screen to check the system status.

System launcher

Dedicated screen The screen is provided as the extended function of GOT; therefore there is no need for the users to create the screen.

Sample screen The screen data is included with GT Works3. (As of September 2018)

GOT2000 Functions

Functions designed to meet your requirements

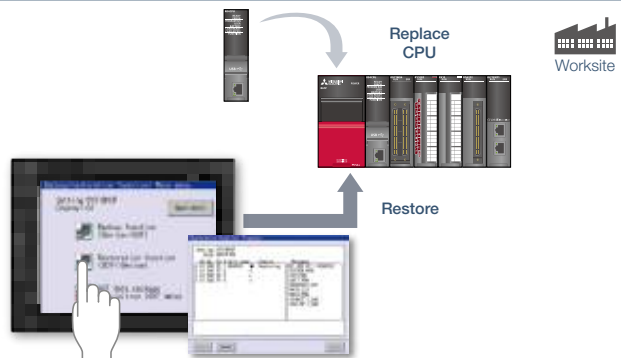

Backup/Restoration function

✔GT27 ✔GT25 ✔GT23 ✔GT21

Backup or restore the programs and parameters of programmable controller CPUs or other devices to or from the GOT's SD memory card or USB memory. With a backup of data in the GOT, there's no need to use a personal computer when replacing the industrial devices such as the programmable controller CPU. All replacement and restoration can be completed with just the GOT.

* Excluding GT2103-PMBLS
* A separate SD memory card or USB memory is required.

Sequence program monitor (iQ-R ladder)/ Sequence program monitor (Ladder) function

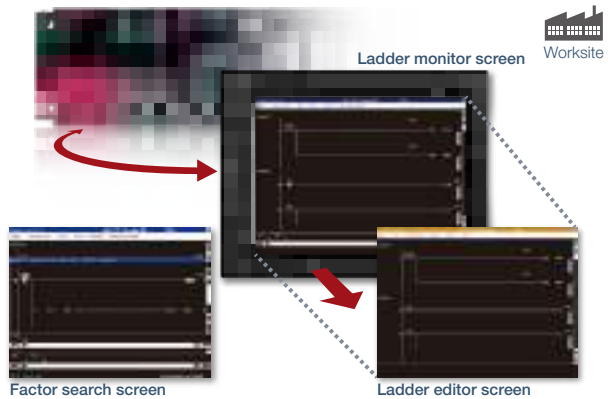

✔GT27 ✔GT25 □GT23 □GT21

GOT can monitor and edit a sequence program in a controller in the ladder format, and also can change current values of devices. When an error occurs, monitor the ladder program and identify the cause of error. There is no need for a personal computer on the production floor.

* A separate SD memory card or USB memory is required.

Sequence program monitor (Ladder monitor)

Sequence programs of Mitsubishi Electric programmable controllers can be monitored in the ladder format.

Ladder editor

Sequence programs of Mitsubishi Electric programmable controllers can be edited in the ladder format. Just touch the position where you want to edit (contact, vertical line, etc.) and enter, change, or delete the ladder symbol or device. Vertical lines, horizontal lines, columns, and rows can be inserted or deleted.

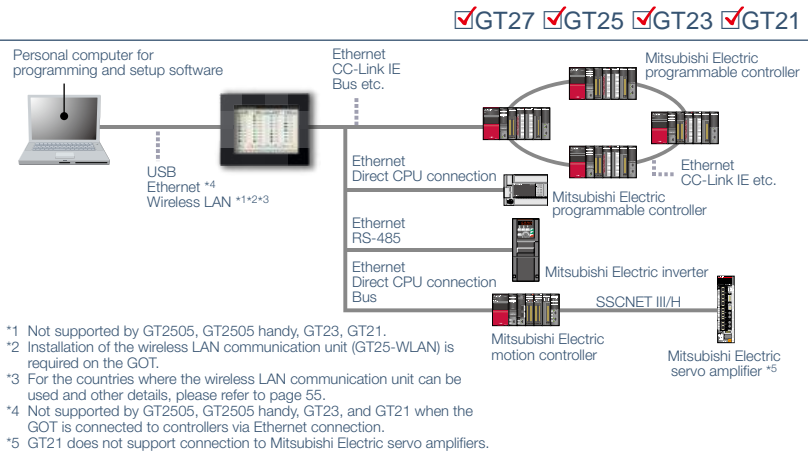

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

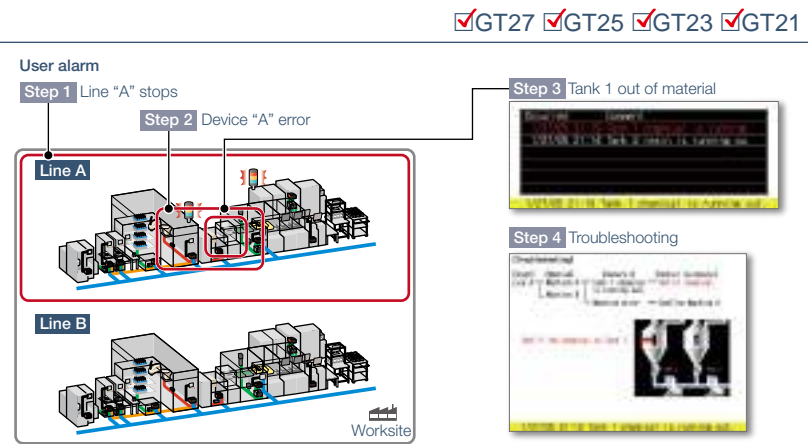

FA transparent function

By connecting a personal computer to the front USB interface on the GOT, you can use the GOT as a transparent gateway to enable programming, startup, and adjustment of industrial devices. Users do not have to bother with opening the cabinet or changing cable connections.

Alarm function

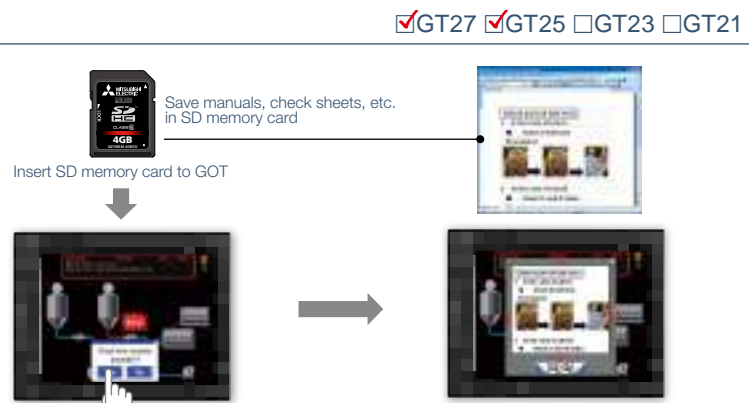

Alarms are displayed with a station No. and CPU No. in the list grouped by system or level. It helps you to identify the location where the error occurred in a large system, leading to quick troubleshooting.

Document display function*1

GOT displays various kinds of documents*2 such as manuals. With bookmark display and keyword searches, you can instantly check the information you want in a PDF file.

*1 A separate SD memory card is required.
 *2 PDF file, DocumentConverter output file (docx, xlsx, pptx, pdf, jpg, bmp)

GOT diagnostics function

You do not need to visit the worksite. The status of GOT and CPU can be monitored using GT Works3 at your office. Check the error cause and corrective actions in detail, and you can solve the problem quickly. You can also monitor the GOT internal devices and change the device values as necessary.

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Gesture function

GT27 GT25 GT23 GT21

Zoom in to easily operate small and hard to reach switches. After zooming in, scroll the display to show the area you want to operate.

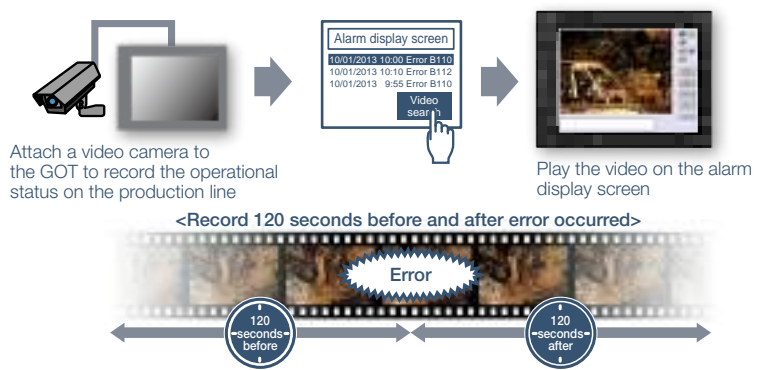

Multimedia function

GT27 GT25 GT23 GT21

GOT displays and records the image taken by a video camera connected to the multimedia unit and plays back the saved video image.

To set the timing of recording, you can use a device of a controller as a trigger.

- * Excluding GT2705.
- * Multimedia unit (GT27-MMR-Z) and CF card are required.

Video/RGB function

GT27 GT25 GT23 GT21

GOT acts as a monitor to display images which are recorded by a video camera or saved in a personal computer.

- * Excluding GT2705.
- * The required option unit differs depending on the function you use. For the details, please refer to the function list (page 42).

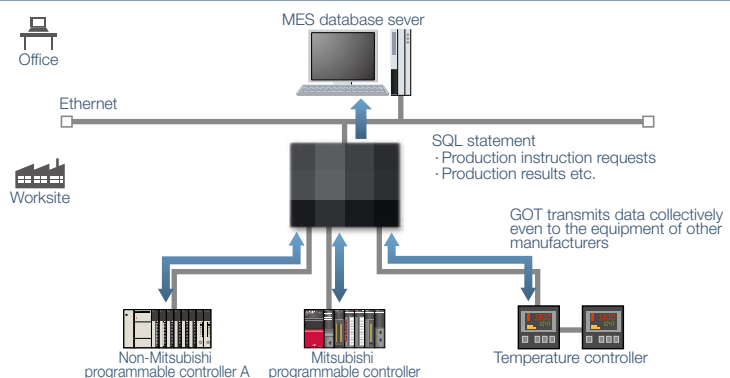

MES interface function*1

GT27 GT25 GT23 GT21

The GOT uses SQL statements*2 to transmit data from the connected industrial devices to a database server.

- *1 A separate license (GT25-MESIFKEY-□) is required.
- *2 SQL is a language to manipulate database.

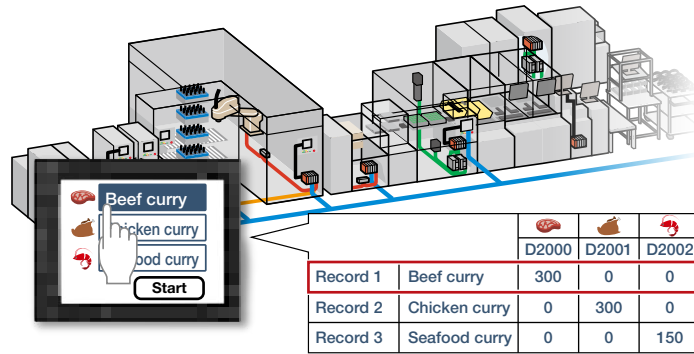

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Recipe function

✓GT27 ✓GT25 ✓GT23 ✓GT21

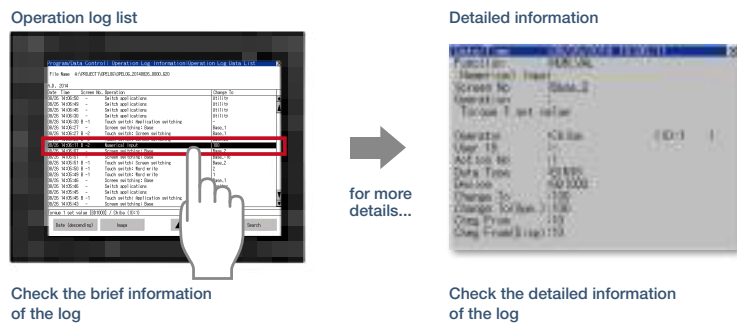

GOT saves recipe information for individual product. You can select a recipe to be written to the programmable controller, which achieves the quick changeover for the production line.

Operation log function

✓GT27 ✓GT25 ✓GT23 □GT21

GOT records the operation information, such as the “what, when, and how” of an operation performed, in chronological order in an SD memory card or USB memory. The record can be output to printers. Use of the operation log function combined with the operator authentication function records additional information of “who” performed the operation.

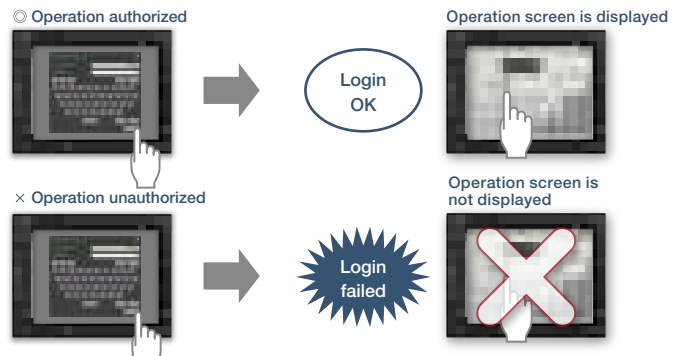

* A separate SD memory card or USB memory is required.

Operator authentication function

✓GT27 ✓GT25 ✓GT23 ✓GT21

Setting the operation authority and viewing authority achieves “enhanced security” and “access management per operator”. Use of the operator authentication function combined with the operation log function enables you to check the “who, what, when, and how” of an operation performed.

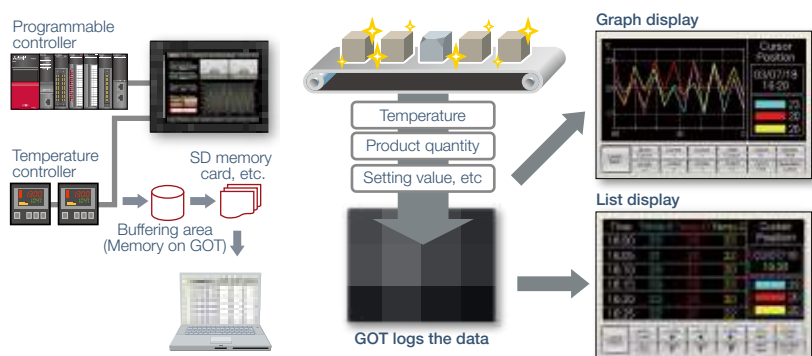

Logging & Graph/List

✓GT27 ✓GT25 ✓GT23 ✓GT21

GOT collects the data from programmable controllers and temperature controllers (logging*) and displays the collected data in a graph and list. You can check the data which was collected when an error occurred to identify and analyze the cause of the error.

* Excluding GT2103-PMBLS.

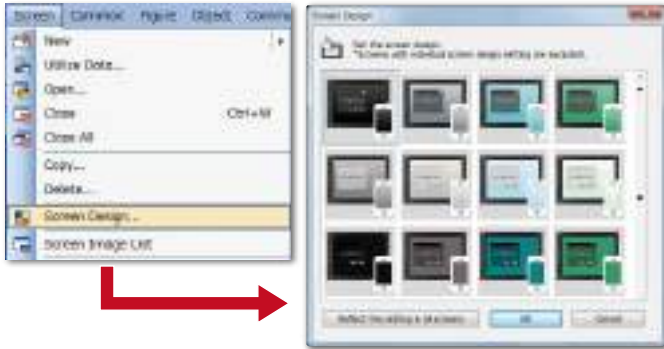

Specification details and restrictions

For the supported connection types and necessary option devices, please refer to the Graphic Operation Terminal GOT2000 Series Catalog (L(NA)08270ENG) or the relevant product manual.

Professional Designs in Just a Few Clicks

NEW
GOT Graphic Ver.2

Simply select your favorite design from a series of themes to easily set a background with beautiful gradation. Of course, you can also customize each screen individually.

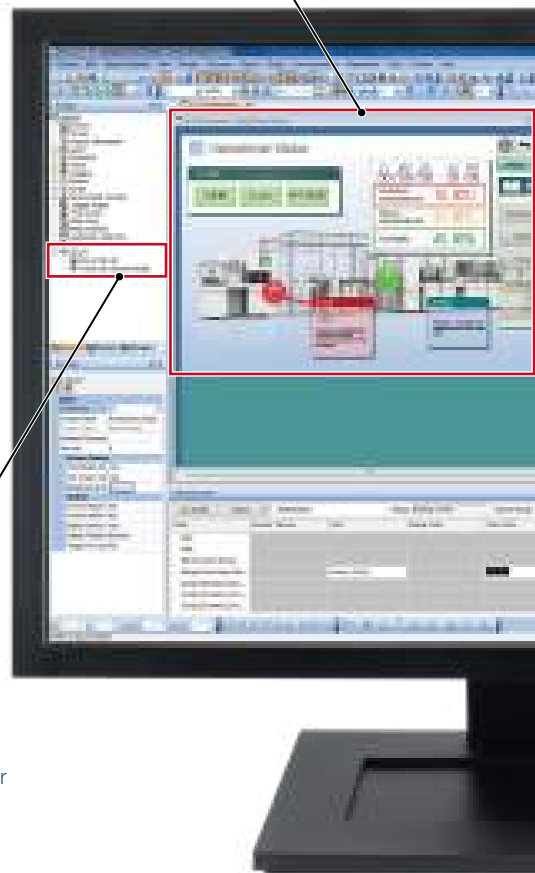

More advanced features!

- Gradation can be set for screen backgrounds
- Window screens and alarm popup displays can be transparent
- Create window screens with round corners
- System key window design is more stylish than ever^{*1}
- Figure antialiasing results in improved appearance
- Configure and change all screen backgrounds at once

^{*1} Not supported by GT23, GT21.

Movie tips to improve your screen design work ▶

Upgraded

Utilize data (Screens)

Individual screens can be utilized from past projects and sample projects. Select the screens to utilize, then drag and drop to launch the utilization wizard. Just follow the simple steps and you can utilize the project data.

Utilization wizard

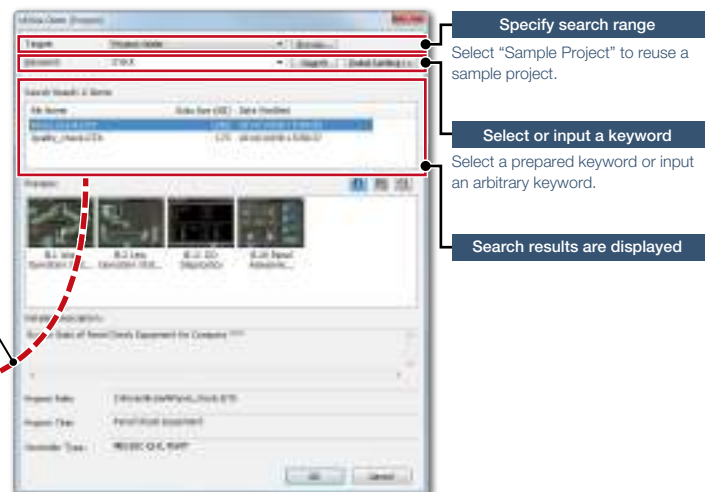

Simple step navigation.
Settings related to target screen (comment group, logging, scripts, etc.) can also be utilized.

Utilize data (Projects)

When creating a new project, search through the existing projects to find any existing projects that may be reused. Keyword search helps narrow down the search.

Choose the applicable project from the search result

Data browser

The data browser shows a list of objects used in the project. The settings can be edited directly on the browser or by opening the setting dialog. You can easily identify any duplicate data and no longer have to open multiple screens.

Directly edit on the list, or edit from the setting dialog.

Double-click

After selecting a line, the tree can be expanded with Shift + [+] key.

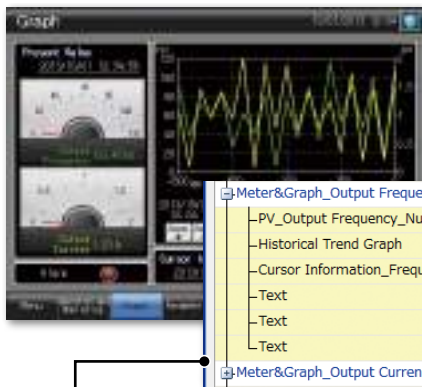

- **Display targets**
Figures, objects, screen scripts, screen trigger actions
- **Editable details**
Directly edit devices and text, etc.
Change devices, text, colors, and figures in a batch
Change action settings, fonts, and figures
Change range settings of numerical displays and other objects
Copy/paste multiple cells
Sort and narrow down items by using devices/keywords
Interchange columns with drag & drop

Template

Customize each template to the desired look-and-feel, ranging from color options to device selection. Attributes such as devices and colors can be set for each template.

You can easily change devices and colors by associating each object with the template's attribute.

Template attributes (color)

- Historical trend graph line color
- Text color
- Numerical display value color

Make batch changes with simple settings

Change color from green to red

Colors and devices are changed in a batch

2 Always download the latest manuals. Easy to update with just one click!

3 Increase your screen design efficiently

Quickly confirm with F1 key

Press the F1 key in GT Works3 and jump to e-Manual for the dialog being edited! Quickly check setting methods and other information!

GT Works3

e-Manual

Easy to view, easy to use!

Easy to view contents, easy to use, useful functions help you access manuals efficiently. Quickly search for the information you need.

Cross Manual Search

Search required information from multiple manuals by keyword. You can get to the information you need without opening manuals one by one.

Bookmark

Bookmark frequently used manuals and pages and you can check the information quickly.

Note

Take a memo, such as know-how, and add it to the manual and you can customize manuals as you like.

Sample projects [English, Japanese, Chinese [Simplified]]

GOT2000 has many sample projects that can be used when designing screens. Just select a sample and apply it to your screen.

Specifications

For the details of functions, supported controllers, and connection types, please refer to the relevant manual or Help of the GOT2000 Series.

*1 Necessary units when using GT27, GT25, GT25 wide, GT25 rugged, GT25 handy, GT23, GT21, or GT21 wide models are shown. Parenthesized devices are required depending on conditions of use.

*2 Data is output to the printer that is recognized by the personal computer.

*3 CSV files are saved in the virtual drive of the personal computer so that it is recommended to output the files to printers.

*4 Only the GOTs with SVGA or higher resolution are supported.

*5 Remote personal computer operation function (Ethernet) cannot be used. The following screens are displayed horizontally; utility screen, monitor and data management screens that are displayed from the utility screen (sequence program monitor, etc.), video camera images in the multimedia and video display functions. For the details of other GOT operations when placed vertically, please refer to the relevant product manual or Help.

*6 Excluding GT2103-PMBLS.

*7 GT2104-RTBD only.

*8 Excluding GT2705-VTBD.

For the details of functions, supported controllers, and connection types, please refer to the relevant manual or Help of the GOT2000 Series.

^{*9} To use multiple units such as extension units, barcode readers, or RFID controllers with a GT2705-VTBD, the total current consumption of the units should be less than the value that the GT2705-VTBD can provide. For the details, please refer to the relevant manual of the GOT2000 Series.

^{*10} GT2715-XTBA, GT2715-XTBD, GT2712-STBA, GT2712-STBD, GT2712-STWA, GT2712-STWD only.

^{*11} For the applicable communication units and option units, please refer to "Product list" (page 55) and the relevant product manual.

^{*12} Use the standard interface of the personal computer.

^{*13} When using functions that require a USB memory or SD memory card, a virtual drive in the personal computer is used.

^{*14} GT2103-PMBD, GT2103-PMBDS, and GT2103-PMBDS2 require an SD memory card unit (GT21-03SDCD) separately. GT2103-PMBLS does not allow for SD memory cards.

^{*15} GT2104-RTBD, GT2103-PMBD only.

^{*16} On GT2103-PMBLS, only the functions that do not require SD memory card can be used.

^{*17} Excluding GT2505-VTBD.

^{*18} GT25 wide and GT25 rugged models have a built-in sound output interface so that the sound output unit is not required.

^{*19} GT2505HS-VTBD supports the function with Ethernet connection only.

Specifications

For the details of functions, supported controllers, and connection types, please refer to the relevant manual or Help of the GOT2000 Series.

^{*9} To use multiple units such as extension units, barcode readers, or RFID controllers with a GT2705-VTBD, the total current consumption of the units should be less than the value that the GT2705-VTBD can provide. For the details, please refer to the relevant manual of the GOT2000 Series.

^{*10} GT2715-XTBA, GT2715-XTBD, GT2712-STBA, GT2712-STBD, GT2712-STWA, GT2712-STWD only.

^{*11} For the applicable communication units and option units, please refer to "Product list" (page 55) and the relevant product manual.

^{*12} Use the standard interface of the personal computer.

^{*13} When using functions that require a USB memory or SD memory card, a virtual drive in the personal computer is used.

^{*14} GT2103-PMBD, GT2103-PMBDS, and GT2103-PMBDS2 require an SD memory card unit (GT21-03SDCD) separately. GT2103-PMBLS does not allow for SD memory cards.

^{*15} GT2104-RTBD, GT2103-PMBD only.

^{*16} On GT2103-PMBLS, only the functions that do not require SD memory card can be used.

^{*17} Excluding GT2505-VTBD.

^{*18} GT25 wide and GT25 rugged models have a built-in sound output interface so that the sound output unit is not required.

^{*19} GT2505HS-VTBD supports the function with Ethernet connection only.

Specifications

For inquiries relating to the latest status of GOTs conforming to various standards and laws (CE, ATEX, UL/cUL, Class I Division 2, EAC, KC, KCs, and maritime certifications [ABS/BV/DNV GL/LR/NK/RINA]), please contact your local sales office.

*1 Time for display intensity reaches 50% at ambient temperature of 25 °C.

*2 For the details of connectable units, please refer to the relevant product manual.

*3 Note that the structure does not guarantee protection in all users' environments. The GOT may not be used in certain environments where it is subjected to splashing oil or chemicals for a long period of time or soaked in oil mist.

*4 The SD memory card unit (GT21-03SDCCD), sold separately, needs to be mounted.

*5 The dimension when the SD memory card unit (GT21-03SDCCD) is mounted is 113(W) × 74(H) × 32(D) mm (4.45(W) × 2.91(H) × 1.26(D) inch).

*6 For the list of other manufacturers, please refer to page 27. For the details of connectable models and system configurations, please refer to the relevant product manual.

*7 To conform to IP67F, close the USB environmental protection cover by pushing the [PUSH] mark or the [PULL] mark firmly. (The GOT conforms to IP2X when the USB environmental protection cover is open.)

*8 To conform to IP67F attach the environmental protection sheet.

For the details of functions, supported controllers, and connection types, please refer to the relevant manual or Help of the GOT2000 Series.

*9 The suffix "F" of IP67F, IP66F, or IP65F is a symbol that indicates protection rate against oil. It is described in the Appendix of Japanese Industrial Standard JIS C 0920.

*10 The operating ambient temperature includes the temperature inside the enclosure of the control panel to which the GOT is installed.

*11 When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: multimedia unit (GT27-MMR-Z), MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

*12 When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

*13 If the ambient temperature exceeds 40 °C, the absolute humidity must not exceed 90% RH at 40 °C.

*14 To conform to ATEX/KCs standard, use GOT model that conforms to the standard with appropriate options (protective sheet and special fittings) that are required separately. For the required options, please refer to page 57 and page 58.

*15 The lower part of the panel including the USB environmental protection cover is black.

For inquiries relating to the latest status of GOTs conforming to various standards and laws (CE, ATEX, UL/cUL, Class 1 Division 2, EAC, KC, KCs, and maritime certifications [ABS/BV/DNV GL/LR/NK/RINA]), please contact your local sales office.

*1 Time for display intensity reaches 50% at ambient temperature of 25 °C.

*2 For the details of connectable units, please refer to the relevant product manual.

*3 Note that the structure does not guarantee protection in all users' environments. The GOT may not be used in certain environments where it is subjected to splashing oil or chemicals for a long period of time or soaked in oil mist.

*4 The SD memory card unit (GT21-03SDCD), sold separately, needs to be mounted.

*5 The dimension when the SD memory card unit (GT21-03SDCD) is mounted is 113(W) × 74(H) × 32(D) mm (4.45(W) × 2.91(H) × 1.26(D) inch).

*6 For the list of other manufacturers, please refer to page 27. For the details of connectable models and system configurations, please refer to the relevant product manual.

*7 To conform to IP67F, close the USB environmental protection cover by pushing the [PUSH] mark or the [PULL] mark firmly. (The GOT conforms to IP2X when the USB environmental protection cover is open.)

*8 To conform to IP67F attach the environmental protection sheet.

For the details of functions, supported controllers, and connection types, please refer to the relevant manual or Help of the GOT2000 Series.

*9 The suffix "F" of IP67F, IP66F, or IP65F is a symbol that indicates protection rate against oil. It is described in the Appendix of Japanese Industrial Standard JIS C 0920.

*10 The operating ambient temperature includes the temperature inside the enclosure of the control panel to which the GOT is installed.

*11 When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: multimedia unit (GT27-MMR-Z), MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

*12 When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

*13 If the ambient temperature exceeds 40 °C, the absolute humidity must not exceed 90% RH at 40 °C.

*14 To conform to ATEX/KCs standard, use GOT model that conforms to the standard with appropriate options (protective sheet and special fittings) that are required separately. For the required options, please refer to page 57 and page 58.

*15 The lower part of the panel including the USB environmental protection cover is black.

For inquiries relating to the latest status of GOTs conforming to various standards and laws (CE, ATEX, UL/cUL, Class 1 Division 2, EAC, KC, KCs, and maritime certifications [ABS/BV/DNV GL/LR/NK/RINA]), please contact your local sales office.

^{*9} The suffix "F" of IP67F, IP66F, or IP65F is a symbol that indicates protection rate against oil. It is described in the Appendix of Japanese Industrial Standard JIS C 0920.

^{*10} The operating ambient temperature includes the temperature inside the enclosure of the control panel to which the GOT is installed.

^{*11} When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: multimedia unit (GT27-MMR-Z), MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

^{*12} When any of the following units is mounted, the maximum operating ambient temperature must be 5 °C lower than the one described in the specification list: MELSECNET/H communication unit (GT15-J71LP23-25, GT15-J71BR13), CC-Link communication unit (GT15-J61BT13).

^{*13} If the ambient temperature exceeds 40 °C, the absolute humidity must not exceed 90% RH at 40 °C.

^{*14} To conform to ATEX/KCs standard, use GOT model that conforms to the standard with appropriate options (protective sheet and special fittings) that are required separately. For the required options, please refer to page 57 and page 58.

^{*15} The lower part of the panel including the USB environmental protection cover is black.

Product List

For the status of conforming to various standards and laws (CE, ATEX, UL/cUL, Class I Division 2, EAC, KC, KCs, and maritime certifications [ABS/BV/DNV GL/LR/NK/RINA]), please refer to the Mitsubishi Electric Factory Automation Global website (www.MitsubishiElectric.com/fa/).

*1 To comply with the ATEX directive and KCs regulation, protective sheet (GT25-□□PSSC-UC) and special fitting (GT25-□□FIT-EXS) in the "Options" list (page 57) are required separately. (Only protective sheet is required for GT2508-VTWD.) Communication units and option units cannot be used. When using these units, GOT does not conform to the standards. For the details, please refer to the Technical Bulletin "GOT2000 Series in Compliance with the ATEX Directive and KCs Certification Requirements" (No. GOT-A-0101).

*2 The lower part of the panel including the USB environmental protection cover is black.

- *1 May not be able to be used depending on the connection target. For details, please refer to the GOT2000 Series Connection Manual.
- *2 Cannot be used when connected with temperature controllers or indicating controllers by RS-485 (2-wire type) connection.
- *3 Cannot be stacked with other units.
- *4 The unit should be used with an Anybus® CompactCom M40 network communication module manufactured by HMS. Please purchase the module by specifying the article number.

Supported network	Communication module product name	Communication module article number
PROFIBUS DP	ABCC-M40-DPV1	AB6910-B, AB6910-C
DeviceNet	ABCC-M40-DEV	AB6909-B, AB6909-C

- *5 Data transfer in wireless LAN communication may not be as stable as that in cable communication. A packet loss may occur depending on the surrounding environment and the installation location. Be sure to perform a confirmation of operation before using this product.
- *6 When [Operation Mode] is set to [Access Point] in [Wireless LAN Setting] of GT Designer3, up to five stations are connectable.
- *7 The product with hardware version A or later complies with the regulation. The product with hardware version A can be used only in Japan.
- *8 The product with hardware version B or later complies with the regulation. The product with hardware version B or later can be used in Japan, the United States, the EU member states, Switzerland, Norway, Iceland, and Liechtenstein.
- *9 The product with hardware version D or later complies with the regulation. The product with hardware version D or later can be used in Japan, the United States, the EU member states, Switzerland, Norway, Iceland, Liechtenstein, China (excluding Hong Kong, Macau, Taiwan), and South Korea.
- *10 Available to GT2104-RTBD, GT2103-PMBD, and GT2103-PMBDS.
- *11 Not available to GT2505-VTBD, GT2506HS-VTBD, and GT2505HS-VTBD.
- *12 Only available to GT2505-VTBD.
- *13 The product complies with the RE Directive from March 31, 2017.

Communication units for GT25 Handy GOT **NEW**

Product name	Model	Specifications	Supported model	
			GT2506 Handy	GT2505 Handy
Serial multi-drop connection unit	GT01-RS4-M	For GOT multi-drop connection	●	—
Connection conversion adapter	GT10-9PT5S	For connecting the RS-422/485 (D-Sub 9-pin connector) and RS-422/485 (terminal block)	● ^{*1}	—

- *1 Usable only when a connector conversion box is used.

*1 The desired number of licenses (2 or more) can be purchased. For details, please contact your local sales office.

*2 Volume license product and additional license product are also available. For more details, please refer to the MELSOFT iQ Works catalog (L(NA)08232ENG).

*3 The product includes the following software.

- System Management Software [MELSOFT Navigator]
- Motion Controller Engineering Software [MELSOFT MT Works2]
- Robot Engineering Software [MELSOFT RT ToolBox3^{*}]
- C Controller Setting and Monitoring Tool [MELSOFT CW Configurator]
- MITSUBISHI ELECTRIC FA Library
- Programmable Controller Engineering Software [MELSOFT GX Works3, GX Works2, GX Developer]
- HMI/GOT Screen Design Software [MELSOFT GT Works3]
- Inverter Setup Software [MELSOFT FR Configurator2]
- Servo Setup Software [MELSOFT MR Configurator2]

* RT ToolBox3 mini (simplified version) will be installed if iQ Works product ID is used. When RT ToolBox3 (with simulation function) is required, please purchase RT ToolBox3.

*4 To use GT SoftGOT2000, a license key for GT SoftGOT2000 is necessary for each personal computer.

*5 1 license is required for 1 GOT unit.

*6 This product does not include the DVD-ROM. Only the license certificate with the product ID No. is issued.

*7 To edit sound files, each personal computer requires one license.

*8 GT2505-VTBD does not support the sound output function.

*9 Volume license product is not sold separately and should be purchased with the standard license product.

*10 Each personal computer requires an add-on license.

*1 The white model does not have the front USB interface. It is recommended to use the products that the USB environmental protection cover area is closed.

*2 When using the product with the USB environmental protection cover area closed, the front USB interface cannot be used.

*3 Check if the protective cover for oil can be used in the actual environment before use. When using the cover, the front USB interface and human sensor cannot be used.

*4 Including the GP250□ and GP260□ manufactured by Digital Electronics Corporation.

*5 GT2103-PMBD, GT2103-PMBDS, GT2103-PMBDS2, and GT2103-PMBLS do not have a built-in battery.

*6 GT21 does not support the system status log data backup function.

*7 GT2512F-STNA, GT2512F-STND, GT2510F-VTNA, GT2508F-VTNA, and GT2508F-VTND only.

*8 Only available to GT2104-RTBD.

*9 Necessary for the GOT to comply with the ATEX directive and KCs regulation. For applicable GOT models, please refer to the Mitsubishi Electric Factory Automation Global website (www.MitsubishiElectric.com/fa).

*10 The protective sheet is shaped not to cover the USB environmental protection cover.

*11 An attachment is usable when the control panel has a thickness of 2 to 3 mm. When an attachment is used, the GOT is not IP67F-rated.

*12 Cannot be used with GT2506HS-VTBD.

		GT10-C10EXUSB-5S	1 m	—	For routing the USB port (device) of the GOT rear face to the front side of the control panel	● ^{*14}	● ^{*14}	—	●	—	● ^{*15}	—

¹ FA-LTBGT2R4CBL□, FA-CNV240□CBL are developed by Mitsubishi Electric Engineering Company Limited and sold through your local sales office. The other products listed are developed by Mitsubishi Electric Systems & Service Co., LTD. and sold through your local sales office.

² This cable is usable for GT2103-PMBD.

³ This cable is usable for GT2104-RTBD, GT2103-PMBDS.

⁴ This cable is usable for GT2104-RTBD, GT2103-PMBDS, GT2103-PMBLS. For GT2103-PMBLS, use a 3 m or shorter cable.

⁵ This cable is usable for GT2103-PMBDS, GT2103-PMBDS2.

⁶ This cable is usable for GT2104-RTBD, GT2103-PMBDS2.

⁷ GT2104-RTBD, GT2103-PMBDS is possible to correspond by combining the GT10-C02H-9SC type RS-422 connector conversion cable.

⁸ GT2103-PMBDS, GT2103-PMBDS2 is possible to correspond by combining the GT10-C02H-6PT9P type RS-232 connector conversion cable.

⁹ This cable is not usable for the printer connection.

¹⁰ This cable is usable for GT2104-RTBD, GT2103-PMBDS.

¹¹ This cable is usable for GT2103-PMBDS, GT2103-PMBDS2.

¹² This cable is usable for GT2104-RTBD, GT2103-PMBD, GT2103-PMBDS.

¹³ This cable is not usable for GT2505-VTBD.

¹⁴ This cable is usable for GT2712-STWA, GT2712-STWD, GT2710-VTWA, GT2710-VTWD, GT2512F-STNA, GT2512F-STND, GT2510-VTWA, GT2510-VTWD, GT2510F-VTNA, GT2510F-VTND, GT2508-VTWA, GT2508-VTWD, GT2508F-VTNA, GT2508F-VTND.

¹⁵ This cable is usable for GT2104-RTBD, GT2103-PMBD, GT2103-PMBDS, GT2103-PMBDS2, GT2103-PMBLS.

¹⁶ Note that the usable connection types and cables differ depending on the GOT model. For the details, please refer to the GOT2000 Series Connection Manual.

Cables for GT25 Handy GOT **NEW**

Product name	Model	Cable length	Recommended product ¹	Specifications	Supported model		
					GT2506 Handy	GT2505 Handy	
External connection cable (to connect the connector conversion box)	GT16H-C30-42P	3 m	—	For connection between the Handy GOT and the connector conversion box (GT16H-CNB-42S)	●	—	
	GT16H-C60-42P	6 m	—		●	—	
	GT16H-C100-42P	10 m	—		●	—	
	External connection cable (to connect the connector conversion box of relay cable) ²	GT16H-C30-37PE	3 m	—	For connection between the Handy GOT and the connector conversion box (GT16H-CNB-37S)	●	—
		GT16H-C60-37PE	6 m	—		●	—
		GT16H-C100-37PE	10 m	—		●	—
	External connection cable (to connect separate wire) ²	GT14H-C30-42P	3 m	—	For connection between the Handy GOT and the connector conversion box (GT16H-CNB-42S)	—	●
		GT14H-C60-42P	6 m	—		—	●
GT14H-C100-42P		10 m	—	—		●	
Relay cable (to connect the external connection cable and a programmable controller) ²	GT11H-C30-37P	3 m	—	For connection between the Handy GOT and the connector conversion box (GT16H-CNB-37S and GT11H-CNB-37S) For connection between the Handy GOT and the relay cable (GT11HC15R□-□P)	—	●	
	GT11H-C60-37P	6 m	—		—	●	
	GT11H-C100-37P	10 m	—		—	●	
External connection cable (to connect separate wire) ²	GT11H-C30	3 m	—	For connection between the Handy GOT and the FA device, the power supply, or the operation switch	—	●	
	GT11H-C60	6 m	—		—	●	
	GT11H-C100	10 m	—		—	●	
Relay cable (to connect the external connection cable and a programmable controller) ²	GT11H-C15R4-8P	1.5 m	—	For connecting to a programmable controller	—	●	
	GT11H-C15R4-25P	1.5 m	—		—	●	
	GT11H-C15R2-6P	1.5 m	—		—	●	
RS-422 conversion cable	FA-CNV2402CBL	0.2 m	○	For connecting the QCPU/L02SCPU(-P) and the RS-422 cable (GT01-C□R4-25P, GT10-C□R4-25P, GT21-C□R4-25P5) For connecting the L6ADP-R2 and the RS-422 cable (GT01-C□R4-25P, GT10-C□R4-25P, GT21-C□R4-25P5) [MINI-DIN 6-pin ↔ D-sub 25-pin]	●	●	
	FA-CNV2405CBL	0.5 m	○		●	●	
RS-422 cable ³	QnA/FXCPU direct connection cable	GT01-C30R4-25P	3 m	—	For connecting the QnA/ACPU/motion controller (A series)/FXCPU and the GOT For connecting the RS-422 connector conversion cable (FA-CNV□CBL) and the GOT For connecting the serial communication module and the GOT For connecting the peripheral connection module (AJ65BT-G4-S3) and the GOT [D-sub 25-pin ↔ D-sub 9-pin]	●	●
	Computer link connection cable	GT01-C100R4-25P	10 m			●	●
	CC-Link (G4) connection cable	GT09-C30R4-6C	3 m	○	For connecting the serial communication module and GOT For connecting a computer link module and GOT [separate wire ↔ D-sub 9-pin]	●	●
	Computer link connection cable	GT09-C100R4-6C	10 m			●	●
	FXCPU direct connection cable	GT01-C10R4-8P	1 m	—	For connecting the FXCPU and GOT For connecting the FXCPU communication expansion board and GOT [MINI-DIN 8-pin ↔ D-sub 9 pin]	●	●
	FXCPU communication expansion board connection cable	GT01-C30R4-8P	3 m			●	●
FXCPU communication expansion board connection cable	GT01-C100R4-8P	10 m	●			●	
RS-232 cable	Q/LCPU direct connection cable	GT11H-C30R2-6P	3 m	—	For connecting a QCPU or LCPU and the connector conversion box for Handy GOT (GT11H-CNB-37S/GT16H-CNB-42S)	●	●
	FXCPU communication expansion board connection cable	GT01-C30R2-9S	3 m	—	For connecting the FXCPU communication expansion board and GOT/ personal computer (GT SoftGOT2000) For connecting an FXCPU communication special adapter and GOT/personal computer (GT SoftGOT2000) [D-sub 9-pin ↔ D-sub 9 pin]	●	●
	FXCPU communication special adapter connection cable					●	●
	FXCPU communication special adapter connection cable	GT01-C30R2-25P	3 m	—	For connecting an FXCPU communication special adapter and GOT/personal computer (GT SoftGOT2000) [D-sub 25-pin ↔ D-sub 9 pin]	●	●
	Computer link connection cable	GT09-C30R2-9P	3 m	○	For connecting a serial communication module and GOT For connecting a computer link module and GOT For connecting the peripheral connection module (AJ65BT-R2N) and GOT [D-sub 9-pin ↔ D-sub 9 pin]	●	●
	CC-Link (G4) connection cable					●	●
Computer link connection cable	GT09-C30R2-25P	3 m	○	For connecting a serial communication module and GOT For connecting a computer link module and GOT [D-sub 25-pin ↔ D-sub 9 pin]	●	●	
USB cable	Data transfer cable Printer connection cable	GT09-C30USB-5P	3 m	○	For connecting a personal computer (screen design software) and GOT For connecting a personal computer (GT SoftGOT2000) and QnUL/FXCPU For connecting a PictBridge-compatible printer and printer unit (GT15-PRN) [USB-A ↔ USB Mini-B]	●	●

¹ The products listed are developed by Mitsubishi Electric Systems & Service Co., LTD. and sold through your local sales office.

² Use the cable version C or later.

³ The total length of the cables between the Handy GOT and a controller includes the length of an external cable. A cable of 20 m or longer cannot be used for GT2506HS-VTBD and GT2505HS-VTBD.

Cables for non-Mitsubishi FA products

RS-232 and RS-422 cables are available from every manufacturer. For more details, please see the GOT2000 Series Connection Manual.

Precautions before use

This publication explains the typical features and functions of the products herein and does not provide restrictions or other information related to usage and module combinations. Before using the products, always read the product user manuals. Mitsubishi Electric will not be held liable for damage caused by factors found not to be the cause of Mitsubishi Electric; opportunity loss or lost profits caused by faults in Mitsubishi Electric products; damage, secondary damage, or accident compensation, whether foreseeable or not, caused by special factors; damage to products other than Mitsubishi Electric products; or any other duties.

⚠ For safe use

- To use the products given in this publication properly, always read the relevant manuals before beginning operation.
- The products have been manufactured as general-purpose parts for general industries, and are not designed or manufactured to be incorporated in a device or system used in purposes related to human life.
- Before using the products for special purposes such as nuclear power, electric power, aerospace, medicine or passenger-carrying vehicles, consult with Mitsubishi Electric.
- The products have been manufactured under strict quality control. However, when installing the products where major accidents or losses could occur if the products fail, install appropriate backup or fail-safe functions in the system.

Related products

Graphic Operation Terminal

GOT SIMPLE

Simple models with various user friendly features

10" widescreen GS2110-WTBD

7" widescreen GS2107-WTBD

Enhanced basic functions

Widescreen displays large amounts of information

High resolution WVGA screen has sufficient display area for long alarm messages or wide trend graph display.

Plentiful data capacity

With 9 MB user memory, there is no need to worry about the data size when creating project (screen) data.

Connectivity with various industrial devices

Easily connect to Mitsubishi Electric general-purpose inverters, Mitsubishi Electric AC servos, and various other industrial devices.

Industrial environment tolerance

IP65F front face protection is useful for various production machines and facilities.

Equipped with basic interfaces as standard

Industrial Computer MELIPC Series MI3000

MELIPC MI3000

Panel computers equipped with integrated touch screens

21.5" widescreen MI3321G-W

15" MI3315G-W

Useful in edge computing or as an operation panel

Suitable for use in edge computing

Utilization of pre-installed Edgecross Basic Software and SLMP Data Collector makes it easy to process big data of manufacturing and realizes coordination with IT systems.

Windows® OS enables wider usage

Not only familiar Windows® applications, but also user-created applications can be used to configure systems that meet requirements of individual customers.

Beautiful, stunning, large screen monitor

Large 21.5-inch widescreen display and 15-inch display models are available. Colorful images are displayed with 16.77 million colors.

Easily visualize shop floors with GT SoftGOT2000

Since GT SoftGOT2000 is pre-installed on MI3000, various industrial devices can be monitored in the same way as GOT2000 Series.

System expansion according to needs

MEMO

YOUR SOLUTION PARTNER

Mitsubishi Electric offers a wide range of automation equipment from PLCs and HMIs to CNC and EDM machines.

A NAME TO TRUST

Since its beginnings in 1870, some 45 companies use the Mitsubishi name, covering a spectrum of finance, commerce and industry.

The Mitsubishi brand name is recognized around the world as a symbol of premium quality.

Mitsubishi Electric Corporation is active in space development, transportation, semi-conductors, energy systems, communications and information processing, audio visual equipment and home electronics, building and energy management and automation systems, and has 237 factories and laboratories worldwide in over 121 countries.

This is why you can rely on Mitsubishi Electric automation solution - because we know first hand about the need for reliable, efficient, easy-to-use automation and control in our own factories.

As one of the world's leading companies with a global turnover of over 4 trillion Yen (over \$40 billion), employing over 100,000 people, Mitsubishi Electric has the resource and the commitment to deliver the ultimate in service and support as well as the best products.

Low voltage: MCCB, MCB, ACB

Medium voltage: VCB, VCC

Power monitoring, energy management

Compact and Modular Controllers

Inverters, Servos and Motors

Visualisation: HMIs

Numerical Control (NC)

Robots: SCARA, Articulated arm

Processing machines: EDM, Lasers, IDS

Transformers, Air conditioning, Photovoltaic systems
